

Earth Tones

Euchy Mulch - A fine and uniform mulch in rich red/ brown tones. Attractive soil covering - especially in native gardens. The fine fibres lock to make a stable mulch, suitable for slopes and windy areas.

Decomposed Granite -Pink/Brown - Rustic driveways and pathways are achieved with a complimentary feel to the environment. A compactable product to give firm surfaces and can be stabilised with cement by request.

Somersby 5-10mm Fine and easy to walk on. Cool beige, brown and silver tones. Works well between pavers and in pots. Economical and easy to lay.

Hunter River Pebble - 20mm - Very popular rounded pebble for ground covering. Mid browns compliment foliage.

Lucky stones - Large Feature stones. Drifting rows create borders - and create the "dry riverbed" look. Layer with the different pebbles to add interest and depth. Combine with grasses and strappy foliage to complete the picture

Bushrock - Random sized rocks with attractive lichen markings bring nature into the garden. Scatter to feature or build dry retaining walls.

BC Sands - 26 Atkinson Rd - Taren Pt 2229
